Hardcover. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Hardcover Pub Date: 2013 Pages: 315 Language: Chinese in Publisher: Tianjin University Press. the design of contemporary office buildings have started to get rid of the past. closed the layout. combined with the urban fabric and location characteristics. construction volume staggered. the space open closely related to the surrounding environmental elements of the contract. to enhance openness. recognition. communication and permeability. Space ductility deliberately vague definition of urban public space and office space. not only to subvert the characteristics of the closure of the office space in the traditional sense. provides the greatest possibility for the introduction of more urban everyday life state. other functional composite and Urban development. positive interaction trend is more pronounced. Modern electronic communications technology of the office environment and living environment for two-way interaction. it makes people no longer rigidly adhere to the restrictions of time and space. and can start work in any conditions permit. This contributed to the total of new office space and living space. the space mode. to adapt to the mobile. and decentralized demand for office space. The design of contemporary office buildings have begun to go beyond the traditional model of a self-contained. pay tribute to the original historical relics convey it to focus on a wider range of geographical and historical context. not only the expectations and the geographical historical context to obtain echoes more expectations in history and reproducing realistic power obtained in the longitudinal extension in the future. For example. the use of industrial ruins as an office building renovation mode. not only the external form and internal space of the original order of the plant and industrial heritage features will be reflected by the...
