Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Geography: Physical, Grade 8a The following brief treatise on the elements of mathematical and physical geography has been prepared to meet the requirements of elementary schools. Much of the material here given has already been taken up at intervals during the regular geographical course. Enough new matter has been added to provide for a terms work on these subjects. A number of astronomical facts have been given in the first chapter, not strictly related to geography but such as everyone ought to know. Chapters V and VI, dealing with the magnetism of the earth, the moons phases, and eclipses, are also not defensible as geography, but are introduced as matters of general information. The remaining chapters of the book treat of the general features of the earth, of the forces at work in altering its surface, and of atmospheric and oceanic movements. The final chapters deal with the distribution of plant and animal life and with the races of man and their physical and social characteristics. It is believed that the book can be used...
