

Timber Trees and Forests of North Carolina Volume 6-7 (Paperback)

Filesize: 8.37 MB

Reviews

*This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who statte that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).

Theclassics.Us, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1897 edition. Excerpt: .the valley of the Arkansas river; reaching its best development in eastern North Carolina. In this State (fig. 34), where it attains an average height of 50 to 70, and an average diameter of 2 to 3 feet, it is found on a great variety of soils and situations from the sea level to an elevation of 1,000 feet. The original growth is on moist deep soil, but the second growth has sprung up largely in old fields, often replacing the long-leaf pine on the moister loamy lands. It bears seed generally every year, and abundantly once in 2 or 3 years, but much of the seed is imperfect. Seedlings are very common on rather moist soil in abandoned fields. The rate of growth, under sufficient light, is very rapid. The slender light green leaves are usually in threes, with rather long close sheaths. The cones are ovate-oblong and 3 to 4 inches long; the scales terminate in short rigid spines. This species has a tap-root and many strong deeply penetrating lateral roots. The wood is light, not strong, brittle, very coarse-grained and not durable; light brown in color, the very thick sapwood orange or often nearly white. It is used for lumber and fuel. Turpentine is sometimes obtained from this tree. *Pinus rigida*. Miller. (pitch Pine, Black Pine.) A tree, with an oblong crown, spreading branches, a cylindrical, and often crooked stem, and rather flaky dark reddish-brown bark, reaching a height of 80...
