

## Natural Resources and Environment: How to Improve U.S. Forest Service Reports on Forest Resources: Pad-77-29

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. The Forest Services Renewable Resource Assessment is designed to inventory renewable forest and range resources and to analyze the supply and demand for them. The Renewable Resource Program is designed for management of these resources. The 1975 Assessment and Program documents were hard to read; the writing style was verbose, and statistics were not documented. Major issues were not discussed separately from the systems format. The major analytical issue in the Assessment was the quality of the forecasts. The Assessment and Program presented the results of some type of economic analysis, but they contained few regional disaggregations for information presentation, supply and demand projections, or analysis. Greater analysis of issues involving the relationship between the public and private sector is needed. This item ships from La Vergne, TN. Paperback.

### Reviews

*Completely among the best pdf I actually have possibly read through. It is probably the most awesome pdf we have read. You won't really feel monotony at whenever you want of your time (that's what catalogs are for about in the event you ask me).*

-- **Prof. Martine Lesch**

*Most of these ebook is the best publication available. It is definitely simplistic but unexpected situations within the 50 percent of the book. You will not sense monotony at at any moment of the time (that's what catalogs are for relating to in the event you request me).*
