Wang Shun compiled a combination of physical chemical experiments (five-second application-oriented institutions of higher education planning materials) system is a comprehensive introduction to physical and chemical composition test knowledge. to train students to a comprehensive analysis of problems and problem-solving ability. This book can serve as institutions of higher learning chemistry. chemical engineering. applied chemistry and materials chemistry. physical chemistry lab course of professional materials. but also for biology. physics and other related professional students and research officers. Contents: Preface Introduction Section of Physical Chemistry Experiment learning objectives. requirements and rules for the safety of Physical Chemistry Experiment II III physical and chemical protection experiments and data processing error in the fourth quarter of the physical and chemical combination of computer processing of experimental data Experiment I Experimental determination of heat capacity of a constant heat of combustion of sucrose experiment two lower freezing point determination of molar mass of sucrose measured by polarimetry experiment 3 sugar acid-catalyzed conversion of the reaction rate constant experimental Spectrophotometric Determination of invertase quarter Michaelis constant combination of experiment Experiment 5 static method for the determination of the saturated vapor pressure of ethyl acetate reflux condensation experiments six draw an ethanol ethyl acetate two-liquid-liquid equilibrium phase diagram Department of Experimental seven conductance method for the determination of ethyl acetate saponification reaction rate constant and activation energy experiment eight solution Determination of ethyl acetate combination of experimental dipole moment experiment nine crystal iodine standard entropy and enthalpy of sublimation of the partition coefficient measurement experiment ten I2 and I3-determination of dissociation constants of reaction experiment eleven Determination of iodide in...
