Communicating with the African Patient

By Chris Ellis

University of KwaZulu-Natal Press. Paperback. Book Condition: new. BRAND NEW, Communicating with the African Patient, Chris Ellis, This book is filled with useful and practical language learning strategies designed to help doctors, nurses and other healthcare workers (who do not speak an indigenous language) to learn an African language through their daily contact with patients. More than this, it gives advice on ways to reach some understanding of the culture, health beliefs and world views of the patient in a medical consultation. Although English/Zulu and the Zulu medical culture are used as the examples, the underlying themes are applicable to any culture. The book has retained the humour and wit of its predecessor, "Learning Language and Culture in the Medical Consultation", but it has been considerably revised and expanded to include more material on the cross-cultural consultation, the Aids pandemic, as well as appendices of vocabulary and 'survival phrases' designed to facilitate communication and understanding in a medical context.

Reviews

A very great ebook with perfect and lucid answers. It can be packed with wisdom and knowledge I found out this book from my dad and i encouraged this publication to learn.

These kinds of publication is everything and made me hunting ahead of time and more. I have got read through and i also am confident that i am going to gonna study yet again yet again later on. Its been printed in an extremely basic way in fact it is only after i finished reading this pdf in which in fact transformed me, alter the way i believe.
